To: service@doterra.com

To Whom It May Concern:

My name is Miles Jordens, founder of www.holisticessentials.ca . Recently, on the behalf of hundreds of consumers, my company had your "Deep Blue" essential oil blend subjected to GC/MS analysis testing by Laboratoire PhytoChemia in Quebec. A copy of that analysis report has been attached for your reference.

Your product raised some questions by the chemists as noted in the attached report, including the fact there seems to be Ylang Ylang in the blend, but it is not listed on the label.

These results will be published onto my webpage and subsequent consumer education social media groups in 3 business days. I wanted to provide advance notice to your company so that you may issue a statement or reply if you wish, which we will publish along with the test results.

More and more consumers are demanding transparency and authenticity in the aromatherapy market, and I hope you provide this notice the attention it deserves and forward to the appropriate executive/owner for response.

If you have any questions or concerns, please do not hesitate to contact me.

Kind regards,

Miles Jordens
Founder and CEO
Holistic Essentials
